## Editorial Comments.

Germany's "White Book" will soon be red.

Fire in the St. George Hotel, Winchester, did \$5,500 damage.

While they are fighting on the other side, we can at least swat flies.

Cases of cholera have appeared in both the Austrian and Serbian armies.

An influx of Germans and Austrians from Canada into the United States is expected.

The monarchs of England, Russia, Germany and Greece are all grandsons of Queen Victoria and first cousins.

The Senate promptly confirmed the nominations of Warburg and Delano, completing the Federal Reserve Board.

England's naval commander is Sir John Jellicoe, while Earl Kitchener has been made War Secretary to conduct the army operations.

At the request of the Germans, the Belgians granted a 24-hour armistice Saturday for the invaders to bury their dead and collect their wounded.

Mrs. Lizzie Shelton, of Lawrence, Kan., has been nominated as one of the six candidates for Supreme Court Justices, three of whom will be elected.

The Belgian queen was a Bavarian princess and many Bavarians are said to be unwilling to fight the Belgians and some are deserting rather than do it.

Germany could have saved time, money and soldiers by invading France a little to the south, without crossing Belgium and stirring up hornets that were in their own nests.

High Admiral Alfred P. T. Von Tirpitz, in command of the German Navy, has a luxuriant crop of whiskers on his chin and no hair worth mentioning on his head.

Mexico is right, Gen. Funston's lines should be extended to the City of Mexico at once. Sooner or later the United States will have to restore peace in Mexico. Why not now?

Portable incinerators for the cremation of the dead on the battlefield will be used by the German army. One will consume 25 bodies in an hour. The ashes will be saved for burial.

A. M. Huntington, President of the American Geographical Society, and a son of the late railroad magnate, C. P. Huntington, was arrested in Nuremberg Saturday and imprisoned as a spy.

The Federal Reserve Board has organized with Hamlin chairman and Deano vice chairman. It will be sworn in at Washington and begin work at once to put the new currency system into effect.

Admiral Von Tirpitz is Germany's naval commander. Germany's first attempts will be to reduce England's fleet preponderance by torpedo warfare. The German Commander-in-chief of the army is Gen Berthold Von Deimling. The General will soon be the busiest man in Europe.

The official count from 100 counties gives Beckham 56,955. Stanley 50,884, McCreary 16,809. Unofficial reports from 15 more give Beckham 9,815, Stanley 7,507 and McCreary 2,757. Beckham's lead is 2,379. The missing counties are McCracken, Casey, Laurel, Trigg and Caldwell.

The whole country mourns with President Wilson in the death of his beloved wife, who had been his helpmeet and counselor for nearly thirty years. In the hour of his great triumph, when the plaudits of a grateful people are ringing in his ears for services to the country, his heart is bowed down with a grief that calls for all the fortitude he can command.

## BY THE BLUE ALSATIAN MOUNTAINS WAR TO COME

Emperor William Is Reported To Have Gone To The Front To Join The German General Staff In Battle Against Allied Armies of Belgium, France and England.

CITY OF LIEGE OCCUPIED BY GERMANS IS CONFIRMED.

French and British Troops Have Arrived To Reinforce Belgians and Great Battle Is Imminent on Frontier Maybe At Namur In Southern Part of Belgium.

London, Aug. 10.—The occupation of Liege by the Germans is confirmed in a dispatch received here from Brussels early this morning.

A semi-official message from Berlin says: "We hold fast. Liege is in our hands. The losses of the enemy were considerable; our losses will be communicated as soon as reliably known. The transport of 3,000 or 4,000 Belgian prisoners to Germany has begun already, according to news received here. We were faced at Liege by a quarter of the total Belgian army."

"The portion of Belgian Luxembourg invaded by the Germans is being cleared of them by the advancing French troops, who are marching forward with the greatest speed and energy, getting assistance from a division of Belgian cavalry."

"Many trains carrying additional French troops arrived during the night to the front by way of Brussels."

A junction of Belgian, British and French troops in Belgium is reported to have been effected, and a clash between German and French cavalry south of Namur is said to have taken place.

Athens dispatches said large Turk-

ish forces were being concentrated on Bulgarian territory by agreement with Bulgaria.

Emperor William is said to have left for the Alsatian frontier to join the German general staff.

The British admiralty announces that German submarines attacked a British cruiser squadron, but that the British ships escaped undamaged, while one German submarine was sunk.

France has requested the Austrian ambassador to explain Austria's intentions in an alleged movement of Austrians across Germany to the French frontier.

Cholera is said to have broken out among the Austrian and Serbian troops.

Paris dispatches say the Germans in Belgium are short of provisions.

A cablegram from Peking says serious "conversations" are proceeding between the Tokio and London governments concerning whether Japan will participate in an attack on the German colony of Tsing-Tau.

The French and Belgian governments have directed that the resources of the two countries shall be the common property of France and Belgium.

## Sunday's News.

Berlin is celebrating the fall of Liege. The German Emperor announced through an aide-de-camp the success of the German arms in Belgium. Coincidentally a Paris dispatch says that the three German army corps which have been attacking Liege remain in their position, but that extensive movements of troops have been observed which it was presumed meant that the Germans intended an extensive attack on the Belgians before the arrival of French reinforcements. A Brussels dispatch, probably of later date, reported that communication with Liege had been cut off.

Paris officially reports that the French troops have entered Muelhausen, Alsace-Lorraine, an important German stronghold and that they have occupied the village of Altkirch, in Alsace, near the Swiss frontier.

British troops have landed at Ostend, Calais and Dunkirk. Officially it is announced that 20,000 have crossed the channel and are now on their way to Namur, and it is believed that other large bodies will be transported to Belgium and France at the earliest moment. In London the recruiting officers are besieged with volunteers. British trawlers are searching British waters for mines.

Germany and Austria threaten Italy with the declaration that if the latter persists in its neutrality they will consider themselves free to declare war, and Austria will invade Venetia and Lombardy.

That foreign commerce cannot be cut off long was the opinion expressed by Secretary Redfield in an optimistic statement in which he told the business men of this country not to worry.

Plans went ahead rapidly for the relief of Americans abroad. Secretary Garrison practically has decided to charter a fleet of neutral vessels to bring stranded citizens home. The situation in London is much better. Six thousand United States citizens are leaving for home on steamers sailing from Europe.

Some modification in the strict neutrality laws already issued were made and it is probable that ships bearing reservists as individuals will be allowed to sail. A protest against censorship of the German wireless when the cables of France and England were not bothered, was registered.

## Fatalities Only 5,000.

An official detailed report of the first operations around Liege, has been issued at Paris, reducing the number of killed from 25,000 to 5,000. It says:

"The Germans lost 5,000 dead. Twenty-four guns were captured, and one general was made prisoner. The German forces numbered 120,000; the Belgian defenders, 40,000."

The German attack lacked cohesion. On the contrary the Belgians utilized their reserves with consummate skill. The German artillery in general was badly supported by dense attacking columns. The guns were badly served and inaccurate.

The Belgian forts are intact. Not one soldier was killed, and not one wounded during the three-hour bombardment of Fort Evegnée, the steel cupola of which was not damaged.

The Belgian fire was well placed and accurate, proof of which was the destruction of two German heavy pieces. German air craft to deceive the Belgians, carried Belgian flags."

This does not include the wounded and prisoners.

## Aero Bomb Kills Many.

Brussels, Aug. 9.—Flying high over Liege Friday, a German aeroplane dropped three bombs into the Square de Arvey, killing more than thirty persons and injuring a score. The aeroplane passed over Fieron fort, and, though fired upon a dozen times succeeded in reaching a point directly over the city. The pilot dropped a bomb in the fort as he passed, but it failed to explode. Those which he dropped in the square all exploded, and their terrific force blew several to atoms. Withdrawing after exhausting his ammunition, the aviator passed over Evegnée fort. The gunners there also missed, and he succeeded in returning to the German camp.

## WAR NOTES.

Gen. Von Arnim's nineteen-year-old son was killed in the attack on Liege.

Mrs. Ollie James is safe in Copenhagen and Mrs. J. N. Camden and daughters are at Torquay, England.

Tandy Waddington, of Gracey, is spending a few days in the city.

## ROUND-UP OF BOOTLEGGERS

Another Big Bunch of Prisoners Charged With Retailing Liquor.

FROM HOPKINS AND WEBSTER

Lodged In Jail And Charge Will Be Heard By Commissioner Clark To-day.

Yesterday morning on the Dixie Flyer a bunch of 22 prisoners all of whom were negroes, arrested on the charge of bootlegging, were brought here by Sam Powers, chief of police at Madisonville, and L. C. Deevers, chief of police at Providence.

Three of the prisoners, Jim Merritt, Will Smith, and Wilford Kirkwood, who were arrested at Madisonville, were men that the policemen failed to get in the raid several weeks back. The officials have had their eyes on them for some time waiting for a chance to arrest them.

The Providence, Ky., bunch consisted of 19 in all. They were nabbed in a raid Sunday night. Those brought here were: Jess Potts, Bill Pastors, Shelton Blackwell, Maude Ease, Angus Johnson, Jim Skinner, Tom White, Justus Moss, Everett Bishop, Will Crowe, Jim McCisell, Dave Carter, Julian Taylor, Lemman Johnson, Della Clements, Aaron Wynn, Jim Mitchell, Sid Johnson, and Harry Laffoon.

The crowd, immediately after getting off the train, was taken before United States commissioner A. H. Clark, who ordered them put in jail until afternoon when a part of the examining trials were held. The trials will be completed today and further disposition will be made of the prisoners today or tomorrow.

## HOSTILITIES TO RESUME

Unless Carranza Makes Concessions Must Fight Way Into Power.

Mexico City, Aug. 9.—Friday developments in the capital resulted in a triumph for the war party. A hope for peace between the federals and the constitutionalists now is apparently gone. The war party is in control and is being backed up by Provisional President Carranza. Unless concessions are made General Carranza, it seems, must fight his way into the capital and to power.

General Medina Barron was appointed commander-in-chief of the federal forces in the capital today.

"We have 25,000 men, 65 field pieces, 100 machine guns and plenty of ammunition," said a prominent army official, "and are prepared to resist to the end unless ample guarantees are given us. If we must fight it will be one of the greatest battles of the revolution. Every officer in the federal army is prepared to die in defense of the capital."

General Enrique Rivero, General Joaquin Jimenez Castro and General Angel Garcia Conde are in command respectively of the infantry, cavalry and artillery.

If a battle is fought it is believed it will be on the plains in the vicinity of Tlalapa, eight miles north of the capital. The federal advance guard of 7,000 men is facing the constitutionalists at Teoloyucan, fifteen miles north from Tlalapa.

Since the last war, science has developed three great inventions that will have an immense bearing upon the present conflict. The first is the use of dynamite. At comparatively small expense a single bomb can destroy the greatest Dreadnaught afloat. The wireless telegraphy will enable a fleet to be directed from land and its operations controlled while the aeroplane promises to provide a new means of destroying an enemy's vessels. Henderson Clearer.

## CONTESTANTS IN BIG CONTEST ON HOME STRETCH

Closes Saturday Night at 8 o'clock—Interest in Result Shown In All Parts of The County and Friends Will Help Friends.

CONTESTANTS ANXIOUS AS THE END DRAWS NEAR

1000 Extra Votes With Each Dollar Turned In By 6 o'clock Saturday Night—All Will Be Secret From Now Till The Close.

The last count of ballots to be made by the Contest Manager was made yesterday and the result published herewith. All will be secret from now until the last subscription has been turned in by the contestants and their friends, as no information regarding the reserve strength of any candidate will be given out to any one from this office. It will be a waste of time to ask how many votes this or that contestant holds in reserve, or the number of subscriptions turned in by any one.

Miss Mabel Boyd is again in the lead to-day. Of course, the standing as shown in the paper, has but little to do with the actual strength of the various contestants, as nearly all of them are holding a large number of votes in reserve, and it may be that those who are at the bottom of the list below may be the leaders when the final count is made. No one should feel too sure of success, but all should work with a determination to succeed. Turn in as many subscriptions as you can and for as long a term as your friends will give you. Show your friends how a ten-year subscription will help you and you will secure several of this kind. See every one, and be among the winners when the result of the last count is made Saturday night, Aug. 15.

## Manner of Closing Contest.

1,000 extra votes will be allowed with each dollar turned in on subscriptions by 6 o'clock p. m. Saturday. All persons in this office at that hour will be permitted to turn in subscription and receive the extra votes. Just the regular number of votes will be allowed with subscriptions turned in by those arriving after 6 o'clock. The contest will close at 8

o'clock. At 8 o'clock the office will be locked and as soon as all in the house at that time can be waited upon the contestants will turn their reserve ballots over to a committee who will count the votes and announce the winners.

The committee will be composed of a representative of each contestant. Every contestant is requested to select some one to represent her, and see that he is at the Kentuckian office by 8 o'clock Saturday night. All contestants and their friends will be waited upon in private and one contestant will not be permitted to know the number of subscriptions turned in by another. This rule will be strictly enforced.

All contestants and their friends are invited to be present Saturday night, at 8 o'clock to witness the closing of the contest. Be on hand at six o'clock if you wish to receive the 1,000 bonus votes with each dollar turned in on subscriptions.

## VACANCY IS FILLED

Miss Alice Lander Added To The Faculty of High School.

At a regular meeting of the School Board Friday night, the election to fill the vacancy caused by the resignation of Miss Eugenia Rawls, as teacher of English in the High School, was held. Miss Martha Ellis Soyars, who was study hall teacher last year, was elected to fill this position.

Miss Alice Lander was elected to the study hall position. A new place in the faculty was also created. The teacher selected to this place will teach several English classes and other classes not designated.

Miss Lander, the new teacher, is now a teacher in the school at London, Ky., but will resign that position. She is a graduate of the Eastern State Normal school and formerly taught in the city schools here.

## Methodists Have Room.

The Methodist church has furnished one of the third-floor rooms of the Jennie Stuart Memorial Hospital, leaving few, if any to be furnished. This makes three wards and 12 rooms that have been furnished by churches, lodges and individuals.

The Alsatian inhabitants are said to have been so overjoyed at the appearance of the French army that they tore up the frontier posts that marked the line of Germany's conquest in 1870.

## TOM MASON IN LOCK UP

Facing a Charge of Trying To Pass a Forged Check.

Saturday morning at about 11 o'clock, Thomas S. Mason, of near Fairview, was arrested on the charge of forgery. It is claimed that Mason attempted to cash a \$125 check at Planters' Bank & Trust Co., to which the name of Lee A. Hancock had been forged.

Mason had cashed checks several times in the past few weeks that the bank officials later found out to be forged. They had been waiting for a day or two expecting him to try this trick again. Saturday morning when Mason presented the bogus check the police were notified and he was arrested almost immediately after the occurrence.

Mason has been working on the farm of Lee Hancock near Fairview. Monday Mason appeared before Judge Wood and his examining trial was set for 10 o'clock Thursday. He is in the city jail awaiting trial.

The fourth lynching and the eighth violent death in the vicinity of Monroe, La., within a week occurred Sunday, when a negro suspected of killing a white man was hanged.

## Mrs. Whitlow's Father.

Jos. T. Browne, father of Mrs. E. W. Whitlow, died in Henderson Saturday aged 85 years.

## New County Judge.

John M. Stevenson has been appointed Judge of Clark County.

TUESDAY AUGUST 11

It is to be hoped that Mr. Bryan's Peace talk didn't start it all.

Congressman Barkley carried every county in the First district.

Mrs. Cailiaux finished her little performance on the front page just in time.

It has been figured out by statisticians that the war is costing \$50,000,000 a day.

W. M. Riley's watermelon patch near Mayfield, with the crop of 1,200 hills about ready for market, was destroyed by vandals.

There is nothing in a name, but the first appointment Gov. McCreary made after his race for the Senate was a man named Platt.

A remarkable demonstration of friendly feeling for Italy occurred in London. Ambassador Francavilla appeared in response to calls and said Italy would remain neutral.

A Berlin account says the repulse at Leige was not a defeat, but merely an unsuccessful attempt to capture a fortress that proved to be modern, which was a "unique act of heroism."

Carranza's refusal to accept the terms suggested by Carrizal will prevent the United States from recognizing the charge of government in Mexico and troops will be kept at Vera Cruz until a permanent government is established.

The determination of Germany and Austria to open for themselves a doorway to the great markets of India and China, coupled with the lust for arbitrary power of Emperor Francis Joseph, were named as the impelling causes of the present war in Europe by the Serbian Prince, Lazarovich Herbelanovich, in a lecture delivered at New York University.

Senator J. N. Camden has made more reputation than any Senator ever made in the first thirty days of his term. He immediately took rank as an influential member of the Senate and has been given an endorsement of which any man might feel proud without leaving his seat a single day to look after his political interests. With James and Camden on deck, no State is better represented than Kentucky.

Blaming the "unbalanced desire" of Emperor Wilhelm of Germany to be the "war lord of Europe" for the present crisis on that continent, Prof. M. I. Pupin, of Columbia University, Serbian Consul General, predicted Monday that Germany would suffer a glorious defeat in the war she is waging. "There is a kink in the Emperor's brain," he said "and that kink is the obsession that he is the war lord of Europe. It is this which is responsible for the situation the world is facing to-day."

## Eat Before Working.

However practicable it may be for the stalwart farmer to rear himself out of bed in the cold, gray dawn—or even before—and do half a day's work before he comes back to the farmhouse for breakfast, experiment seems to show pretty conclusively that it is almost useless to attempt to do any work that calls for the exercise of the reasoning processes of the mind before the morning sacrifice to the stomach. Particularly is this the case with children and yet how often do we see the little ones urged to get up and study in the morning before breakfast, or at least permitted to lay aside some of the home work in the evening on the plea that they can "do it in the morning." Some may be able

## BRINGS JOY TO ART LOVERS

Splendid Painting by Italian Artist, Lost for Three Centuries, Has Just Been Discovered.

After having been lost for three centuries, a valuable picture by Caravaggio, the chief of the naturalists in the Roman school of painting, has lately been discovered in Florence. Toward the end of the sixteenth century a certain Cardinal del Monte ordered from Caravaggio, then in the height of his great popularity, three pictures, the "Head of Medusa," (which the owner gave to Cosimo del Medici as a wedding present, and which is now in the Uffizi gallery of Florence); the powerful "Card Players" (one of the canvases smuggled out of the Palazzo Sciarra in Rome toward the end of the nineteenth century, and sold to Baron Rothschild), and the picture in question, "Portraits of Six Youths Playing in Concert," which has been recognized in a remarkable way. From an old print by Del Cecchi it is known that the picture in the seventeenth century was in the gallery of the Cerritani, an ancient Florentine family now extinct, and it was not known what had become of it. A short time ago the artist Di Pietro, who was already acquainted with the Del Cecchi print, recognized in the "Picture by an Unknown Artist" shown him in the gallery of Marquis Lotterighi della Stufa the splendid portrait group of the Roman master. The picture, which measures some 9 feet by 5½ feet, represents six half-length figures of young men, one playing the flute, one a lute and one a viola, accompanying two singers, while the sixth listens to them, and shows all the vigor and reality and the fine coloring for which the master was celebrated.

## ALL THE SAME

First Gaffer—That last fellow who bucked my game thought he was some pumpkin.

Second Gaffer—Well, that was about right. He was pie for you, wasn't he?

## HARD TO PLEASE.

A typical "mover" of the ultra shiftless type was passing a few days at a cow camp in Arizona, preparatory to going into the desert on a prospecting trip. His wife, a tired-out, faded-out creature, complained to some of the cow hands of the hardness of her lot, and the foreman took it upon himself to remonstrate with the husband for his shiftlessness and his indifference to his wife's welfare.

"The old woman ain't got no kick comin'!" said the husband when he had heard the foreman's remarks. "She ain't got no kick at all. Why, stranger, when we wuz fixin' to camp of a night many a time I've driv' the team half a mile out of the way so's wood and water would be handy for the old woman to fetch!"—Saturday Evening Post.

## GUIDE FOR HATPIN.

A French novelty designed to prevent the disfiguring of hats with numerous pin holes consists of a button-like guide to be attached to the hat, and through which the hatpin is inserted. It is made of crystal or colored stone and may be secured in colors to harmonize with the hat trimmings. By means of a spiral wire, the guide is quickly attached to the hat, or removed, after the manner of a screw button. A fine wire leaving only an inconspicuous mark is used, so that the guide causes little damage to the hat.

## MEXICAN FEDERAL FORCE.

Brig. Gen. Carlos Rincon Gallardo, called the "human dynamo" of the Mexican federal army, has recruited nearly twelve thousand rurales since August 16. The men are paid \$2.15 a day and provide their

## TREAT HOGS FOR PARALYSIS

Unbalanced Ration, Inbreeding and Parasites Have Each in Turn Been Assigned as Cause.

(By GEORGE H. GLOVER, Colorado Agricultural College.)

Partial or complete paralysis of the hind legs of hogs is seen so often in swine herds that a common cause has been suspected but not definitely determined.

Inbreeding, parasites and an unbalanced ration, have each in turn been assigned as the probable cause of this particular form of paralysis, and now it is quite generally attributed to a lack of phosphate of lime. This salt in a form that can be appropriated may be deficient in the ration or not properly appropriated by the tissues of the body, or again, it may be because of a drain on the system for phosphates to nourish the growing fetus or the young afterbirth.

It is a well-known fact that there is a deficiency of phosphate of lime in the bones and other tissue of pregnant animals and in those that are suckling their young. This is especially true of the sow. But this condition is not

A Fine, Healthy Specimen.

confined to pregnant animals. In one instance a herd of 44 hogs, of both sexes and ages, ranging from ten months to two years, nearly all of them were affected with partial or complete paralysis of the hind legs. The ration had been largely raw potatoes.

They appeared to suffer no pain, the appetite was quite normal. A balanced ration would probably have prevented this condition. The following treatment has been recommended and should be helpful in these cases: One tablespoonful of cod liver oil, 15 grains phosphate of lime and three drops of fluid extract of nux vomica mixed with the food twice a day.

## FERTILIZERS FOR BERRIES

Tankage or Peruvian Guano, Ground Bone, Sulphate of Potash and Soda Are Recommended.

The following are recommended in the culture of this fruit:

Tankage or Peruvian guano, 600 pounds per acre; fine ground bone, 1,000 pounds; low-grade sulphate of potash, 600 pounds; nitrate of soda, 100 pounds.

All these materials may be mixed, applied after plowing and before setting plants and thoroughly incorporated in the soil by harrowing.

Dried blood, 200 pounds per acre; low-grade sulphate of potash, 600 pounds tankage or Peruvian guano, 600 pounds; basic-slag, meal, 1,000 pounds; nitrate of soda, 100 pounds.

The slag is not mixed with the blood, tankage or guano, as it causes a loss of ammonia. It is better to apply the slag by itself, but all of the others may be mixed before application.

## GOOD HINTS ABOUT FENCING

Of Importance to Note Shape of Fields Because It Has Much to Do With Material Needed.

When building fences note the shape of the fields, because it has much to do with the amount of fencing and material required to inclose or reconstruct it.

Thus: A square ten-acre field is 40 rods each way, and will therefore need half a mile of fencing.

A ten-acre field four times as long as wide is 80x20 rods, and will consequently require 200 rods of fence, or 40 rods more than before; so that a square field needs less fencing than an oblong one of the same size. This is a point not often thought of by a good many.

## Fighting Hog Cholera.

While the matter of fighting the disease of hog cholera successfully is a matter largely of cleaner and more sanitary hog houses and hog yards, and of a larger use of pastures and forage crops during the growing season, the presence of the disease germs generally through the hog producing sections, requires also that we must exercise care also along other lines.

## Don't Work Too Hard.

A splendid well handled farm is a good thing, but if to have it we must deny ourselves everything else worth living for, we are paying too much for it. Life isn't so very long at most.

## Fatal to Nursery Trees.

Hot lime and sulphur dip is fatal to young nursery trees. Better have your nurseryman guarantee to send you trees that do not need dipping. But then—all guarantees are not good.

## Watch the Sheep.

This is the time to watch the health of the sheep, and more especially the lambs.

## Corn Grower's Motto.

"Watch and often" is the successful

## Nearly Smothered.

Chandler, N. C.—Mrs. Augusta Lomax, of this place, writes: "I had smothering spells every day, so I expected death at any time. I could not sit up in bed. I suffered from womanly troubles. My nerves were unstrung. I had almost given up all hope of ever being better. I tried Cardui, and it did me more good than anything I had ever taken. I am better now than I ever expected to be." Thousands of ladies have written similar letters, telling of the merits of Cardui. It relieved their headache, backache and misery, just as it will relieve yours, if you will let it. Try Cardui.

## KENTUCKY HORSEFLESH PRE-EMINENT THROUGHOUT THE WHOLE WORLD

### Three Thousand Dollar Prize—Earth's Unequalled Equines Allured By Dazzling Stake In Commissioner of Agriculture's Five Gaited Saddle Horse Ring

Kentucky horseflesh is recognized as pre-eminent throughout the world and it is, therefore, only fitting that the state should boast the greatest premium ever offered in a contest for equine class, as will be the case when the champion saddle horses of the world gather at the twelfth annual Kentucky State Fair, to be held September 14-19 next, to compete in the Commissioner of Agriculture stake of \$3,000.

There has never been a like sum offered in a contest of this kind, the nearest approach to the amount being the \$2,000 prize money offered last year in the same five-gaited saddle-horse event, for which J. W. Newman, Commissioner of Agriculture, stands sponsor.

The announcement of this award in the classification of the horse department of the State Fair catalogue for 1914, will be certain to cause a sensation among horse owners and breeders throughout the country, and it is an assured fact that the greatest line-up of blue-blooded animals the country has ever witnessed will be in the big hippodrome ring on the night of Friday, September 18.

#### In Eight Classifications.

The \$3,000 premium is to be divided into eight classifications, the first being \$550, the second \$500, the third \$450, the fourth \$400, the fifth \$350, the sixth \$300, the seventh \$250, the eighth \$200, with a \$100 silver trophy going to the winner of the first money.

The fact that Hazel Dawn, winner of last year's \$2,000 stake and the \$1,000 for the year prior, is eliminated from the contest this year by her sale,

makes the coming struggle all the more problematical and exciting, as there are a number of "dark horses" in prospect and such noted contestants as Astral King, Kentucky's best, My Major Dare, Richelleu King and Mary Yandell Fox, are rated as certain entries.

A local possibility is H. O. Hurley's Jewel Dare. President Ray's Sunflower may also be entered, together with the great gelding, Jack Barrymore, a stable mate of the famous Hazel Dawn. Nickel Plate, winner of the Commissioner of Agriculture stake in 1911, may also line up for the struggle and will prove a formidable opponent. This horse was sold to Miss Atterbury, of New York, after his triumph at the Kentucky State Fair for the sum of \$6,500. Miss Atterbury has since sold him and his new owners are considering his entry here in September.

#### Roadster Stakes \$1,000.

Another important event listed by the catalogue for the next fair is the Roadster stakes with a premium of \$1,000. This money will attract the best roadsters of the entire country and the event to be held Tuesday night, September 15, or the evening of Louisville Day, is expected to prove one of the most interesting features of the entire fair. The show riding in the big pavilion is being improved in to the minute and the conditions will admit of the phenomenal indoor speed of 2-19. This prize list will be divided into seven premiums.

Wednesday night the light harness stakes will be the feature with a prize up of \$1,000.

ties; the Matinee Girls Musical Comedy; Monster Plantation Show; Streets of Cairo; Mexican Village; pit shows, midgets, freaks and all the other concomitants of an up-to-date Carnival.

Bands will keep up the gala atmosphere and the Carnival fronts, light and decorations will be the greatest ever witnessed at a Kentucky State Fair.

## THE MATCHLESS MIDWAY COMING

**"Beat Last Year," Is the Slogan of the State Fair Management**

"Beat last year!" is the slogan of the State Fair management which keeps the efforts and energies of the entire working organization on the crescendo each season and which makes a forecast for the coming celebrations a dizzying process, but for the fair of September 14-19, Secretary J. L. Dent has achieved a coup in securing the Rice & Dore aggregation for the Midway that places the amusement end of the twelfth annual festival safely under the wire of victorious superiority.

Than the Rice & Dore Carnival shows there is no better organization of the kind extant and they will offer pleasure seekers at the fair a lengthy list of new and alluring novelties.

Among the number will be the Water Circus, unique adjunct to a traveling organization. The Water Show is an aggregation of aquatic marvels in which thirty performers take part, and which all the wonders and witcheries of the New York Hippodrome Tank is displayed. There are world's champion male and female divers and swimmers, log rollers, water walkers, high diving dogs and ponies, clown stunts and the amazing fact that whenever a performer's act is finished they disappear beneath the waves never to appear visible on the surface again, during that particular show, at least. The exhibition is a whirlwind of fun, mystery, beauty and thrill, devoid of a single objectionable or risqué feature and something that State Fair audiences have never witnessed heretofore.

Another out of the ordinary and exceedingly valuable exhibition will be a working model of the Panama Canal in charge of Captain Ladere, who worked under Colonel Goethals in Panama and who knows as much about the "big ditch" as an encyclopedia. Boats will pass back and forth carrying spectators over the face of the canal and enabling them to witness the working of the Culam cut and the locks in perfect miniature.

The autrodrome, with big cars taking the place of cycles in dashing drivers around the inside of a lake at speed that renders them almost entirely invisible, will be a feature of the Midway excitement.

Kline & Barnett's Wild West Show will back like a "Buffalo Bill" as a recreation at its palmist. Kline is the famous cowboy rider of the world, and Barnett, the champion trick rider. In addition to their own exhibitions they have a company of star rough-riding performers and wonderful trained animals which go to make up one of the best "wild and woolly" outfits in the show world.

In addition to these headliners the Midway will boast a remarkable mechanical device called "A Trip to Mars;" a "Haunted Roulette Wheel," which is a "scream;" a Congress of Fat Folks; a 10 to 1 layout of curiosi-

### IS YOUR BABY A "PERFECT" DARLING

Every Mother Thinks Her's Flawless: The Babies' Health Contest Will Tell—Scientific Examination and Competition.

"Isn't it a perfect darling!" admirers of "King Baby" might exclaim, but the modern mother, instead of beaming with pride as of yore, will turn an appraising eye on her adored youngster and wisely murmur:

"I don't know, but I'm going to find out in the Babies' Health Contest at the State Fair."

And in this reply is demonstrated the march of progress which leads a fair management to feature a baby show based on scientific appraisal of the physical condition of a child instead of on the beauty of its dimples, curls or limpid eyes, and the growing enlightenment of parents who seek to discover the shortcomings of their offspring as scientific stock raisers gauge the merits of their cattle, instead of glowing over ephemeral loveliness which might soon be dimmed by ailments or deformities unsuspected by baby's loving guardians.

The Health Contest is a movement which has swept with amazing rapidity over the entire country and was introduced at the State Fair last season for the first time in the history of the State.

The object of the Health Contest is the promotion of hygienic methods in child raising along much the same lines as fair exhibitors follow in scientific stock raising and appraisal.

The movement was first introduced as an offspring of the Mothers' Health Congress held at the Louisiana State Fair at Shreveport in 1908, and the importance of the results were so universally recognized that states vied all over the union rapidly followed suit.

The Babies' Health Contest will, this year, be under the supervision of Mr. John D. Woodbury, and examinations will be made during the first three days of the fair in a newly constructed Babies' building which will have transparent walls through which spectators may observe the processes of measuring and weighing the toddlers—babies from 12 to 36 months are eligible and the entry lists will not close until September 8. Entry blanks for the Babies' Health Contest may be obtained by application to Kentucky State Fair headquarters in the Fair Jones building.

In deference to numerous inquiries and requests last season for an entry class for twins in the Babies' contest, this department has been added and twins will be judged on a separate standard of merit.

The Kentucky State Fair management has arranged a free amusement program which alone is worth the price of admission.

## In Society

### Children's Party.

Friday afternoon Little Elizabeth Gant entertained some of her small friends on the lawn of home at Mr. Geo. Kolb's, on South Main street. Games were played and ice cream and cake were served.

### Lawn Party.

Saturday night Miss Ethel Gunn entertained some of her young friends at a lawn party in honor of Miss Julia May Seutter, of Jackson, at her home on Alumnae Avenue.

The lawn was decorated with Japanese lanterns. Ices and cakes were served.

### Lawn Party.

Friday night Miss Verna Poole was the hostess of an enjoyable lawn party at her home near Church Hill. The party was given in honor of Miss Martha Green, of this city, who is the guest of Miss Poole. Among the out of town guests present were: Misses Allen, of Missouri; Adams, of Pembroke, and McReynolds, of Tex.

The lawn was artistically decorated with Japanese lanterns. Ice cream and cake were served.

A number of town boys drove out for the party.

### Dance At Hotel Latham.

Last night at Hotel Latham the young men of the city gave a much enjoyed dance from 9 to 1:30. The music was furnished by Simpson's orchestra. The dance was given in compliment to Misses Steele and Ginn, of Lexington, who are visiting Miss Alice Merritt, and Miss Searcy, of Bowling Green, who is the guest of Mrs. Paul Twyman.

Quite a number of out-of-town guests were present, among whom were: Misses Leigh, of Chicago, Fairy Russell, of Elkton; Lyons, of Eddyville; McChesney, of Paducah; Ida McKinney, of Elkton; Julia Johnson, of Nashville; Louise and Margaret McPaerson, of Madisonville; Steele and Ginn, of Lexington, and Searcy, of Bowling Green.

Mr. William Warfield, assisted by Miss Alice Radford gave a demonstration of some of the latest dances.

### Good Showing.

The Southern Presbyterian churches according to the reports sent up to the Kansas City assembly, now number 310 602 communicants, 234, 732 Sunday school members and contributed last year to all causes \$1, 098, 739.

## Bethel Female College Is The Ideal School For Young Women BECAUSE:

- 1 It has a history that is the cause for great pride and inspiration to every student in actual attendance at any time.
- 2 The College has not lived in the past only, but is living to-day, and will continue to live gloriously in the future.
- 3 Young women are not well educated unless accomplished in at least one of the Fine Arts. Bethel is the place for art, music, or expression.
- 4 Bethel has a strong faculty. Its teachers have been trained in the best of good schools. Its music teachers are graduates of the best conservatories.
- 5 Painting, drawing, china painting and expression are taught by a teacher who has had wide experience, and who has been especially trained for her work.
- 6 Bethel's dining room will be presided over during the coming session by an experienced housekeeper, and our table will be supplied with the best the market affords.
- 7 In the literary department in addition to three FULL years of COLLEGE work, Bethel offers a four years, standard High School Course, the equal of that of any High School Course ANYWHERE.
- 8 The health of the College is marvelous.
- 9 Bethel's location is practically ideal. It has a campus which is one of the most beautiful in the state. It is well-equipped for the accommodation of fifty boarding students.
- 10 The rates at Bethel are exceedingly low. The services rendered are equal to the best. The care taken of its students equal to that of any school anywhere.

There are only a few more vacant rooms. Secure a room for your daughter at once. ADDRESS

**Pres. W. S. Peterson.**  
HOPKINSVILLE, KENTUCKY.

## THREE OUTSIDE PASSENGERS

### Taken From L&N Train and Given Workhouse Sentences.

Last night two white men and one negro were arrested by policemen here for riding outside of a train without paying fare.

The prisoners gave their names as Jack McClain and Otto Gabler, and Eddie Kimbler, col. They were arrested on the L&N train No. 93, which passes here at 12 o'clock.

The train officials discovered the men riding on the outside of the train without having purchased tickets and immediately wired the police here to take charge of them when the train stopped at the station.

They were tried in the police court and fined \$12.50 each. All three of them went to the work house to work out their fines.

### PASTEUR TREATMENT

#### Is Now Being Administered to Thirty-eight Persons At Bowling Green.

Bowling Green, Ky., Aug. 10.—Thirty-eight persons are in the city taking the Pasteur treatment at the State Laboratory. These people are from all parts of the State. Most of them were bitten by dogs, but some were bitten by a calf, pig and a cat. The patients are required to take twenty-one treatments before they are discharged and the thirty-eight patients take the treatment in one hour.

### Her Annual Visit.

Mrs. Mariah Wisdom paid her annual summer visit to Hopkinsville last week where she met friends of her youth and old age.—Trenton Progress.

State of Ohio, city of Toledo, ss.  
Lucas County.  
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of HALL'S CATARRH CURE.  
FRANK J. CHENEY.  
Sworn to before me and subscribed in my presence, this 6th day of December, 1913.  
A. W. GLEASON,  
Notary Public.

Hall's Catarrh Cure is taken internally and acts directly upon the blood and mucous surfaces of the system. Send for testimonials, free.  
F. J. CHENEY & CO., Toledo, O.  
Sold by all Druggists, etc.  
Take Hall's Family Pills for constipation.

## ASSASSINATION OPENED ABYSS

### Which Drew In Other Powers Says Kaiser From Throne.

Berlin.—Emperor William opened the Imperial Parliament Aug. 4, with an important speech from the throne of which the text was partly as follows:

"The world has been a witness of the indefatigable manner in which we stood in the front ranks during the worries and troubles of recent years in the endeavor to spare the nations of Europe from a war between the great powers.

"The greatest perils which had arisen owing to the events in the Balkans, have been overcome, but then the assassination of my friend, the Archduke Franz Ferdinand, opened a great abyss.

"My ally, the Emperor Francis Joseph, was compelled to take up arms for the protection of his empire against the dangerous agitation existing in a neighboring state.

"In pursuing its interests the Russian Empire stepped in the way of Austria-Hungary.

"Not only our duty, as an ally called us to the side of Austria-Hungary, but the great task was cast upon us at the same time with the ancient community of culture of the two empires, to protect our own position against the attack of unfriendly forces.

"It was with a heavy heart that I was compelled to mobilize my army against a neighbor with whose troops mine have fought side by side on so many fields of battle and with sincere regret I saw the breaking of a friendship to which Germany had been so faithful.

"The Imperial Russian Government giving to an insatiable nationalism has stepped to the side of a state which through a criminal act had brought about the calamity of this war.

"That France also placed herself on the side of our opponent was not surprising to us. Only too often had our efforts to bring about more friendly relations with the French republic had come into contact with the expression of old hopes and with long standing malice.

"The present situation arose not from temporary conflicts of interest or diplomatic combinations, but is the result of ill will existing for years against the strength and prosperity of the German empire.

"We are not pushed on by the desire of conquest. We are moved by the unbending desire to secure for ourselves and those coming after us the place which God has put us.

"My government and, above all, my Chancellor, tried until the last moment to prevent the worst happening.

"In enforced self-defense, with clean conscience and clean hands we grasp the sword.

"To the people and races of the German empire my appeal goes forth to stand together fraternally with our allies in defense of that which we have created in peaceful work.

"Following the example of our forefathers, firm and faithful, earnest and chivalrous, humble before our God and ready to fight when in face of the enemy, let us confine ourselves to the everlasting Almighty, who will strengthen our defense and conduct it to a good end."

### NOMINEE WINNING

#### Picks Up Second Money At Harrodsburg Fair.

At the Mercer county fair P. W. Ray's brown stallion Nominee the Great was second in the three-year-old combined stallion ring. Nominee was ridden by Mack Hughes, who will be with Mr. Ray the rest of the season. This horse, though shown in Mr. Ray's name, is the property of Capt. J. W. Riley, of this county.

### Hog Bit off Toe.

A little daughter of Mr. and Mrs. William Bays, who lives at Fallsburg, Boyd county, lost a toe in an unusual manner. The child, who is 3 years old, was on a fence, through which her foot protruded. A hog proceeded to bite off the large toe from the left foot.

### FIGHT OVER TAXES.

#### Suit To Enjoin Collection At Cerulean Springs.

Caliz, Ky. Aug. 7.—A number of citizens of Cerulean Springs have filed suit against Sheriff H. P. Atwood, of this county, and T. O. Turner, P. L. Gardner, R. J. Stepp and W. N. Stice, trustees of Cerulean, and J. W. Frances, clerk of Cerulean, to enjoin them from collecting the city tax for the years 1909, 1910, 1911, 1912 and 1913. They set forth in their petition that there has not been any legally elected trustees of that town since 1907; that the property has not been assessed by a legally authorized assessor since 1907; that a legally selected Board of Equalization has not passed upon the assessment since 1907, and that the assessment has not been legally certified to the Sheriff for collection since 1907, and they pray the court to enjoin Sheriff Atwood from forcing the collection of their taxes.

### NEW PIKE PLANNED

#### Todd County Road Will Form Part of Davis Highway.

Elkton, Ky., Aug. 10.—Plans are being made for the building of a fourteen-foot pipe from Elkton to Daysville, a distance of four and a half miles. Farmers living along the road are subscribing both money and labor, while business and professional men of Elkton are also responding with subscriptions. This is a part of the Jefferson Davis highway, which fact gives added interest to the project. The pike, it is estimated, will cost \$9,000. The Todd Fiscal Court has agreed to give \$1,000 this year and another \$1,000 next year for the purpose.

### Died At Pembroke.

Jesse F. Primm, of this city, died of dropsy Thursday, aged about 35 years, at the home of his father, W. T. Primm, near Pembroke. Interment in the family burying ground.

### TOBACCO CROP

#### In Nutmeg State. Best in Years—Cutting Begins.

Hartford, Conn., August. 7.—Coming as a climax to the most remarkable season in several years, Connecticut tobacco growers here began cutting millions of tobacco leaves in the plantations hereabouts.

Prices are from 10 to 15 per cent higher than last year. Havana seed tobacco demands 23 cents a pound in the bundles and Connecticut broad leaf 25 cents a pound in the bundles. Both the shade-grown and open-sir tobacco are a success this year. Already 40 per cent of the crop has been brought up by Eastern and Southern jobbers. During the past 10 days there has been a keen rivalry among buyers, who rushed about the county making deals with happy farmers.

As there is all kinds of quality in a bundle of tobacco, it is estimated that Connecticut tobacco will be worth \$1 a pound this season. On the plantations of the Connecticut Tobacco Corporation 168,000,000 leaves will be cut by hand on 558 acres of land. All this tobacco is under cloth.

### Ed Crossland Wins.

Hen. Ed Crossland, formerly of Paducah and Graves county, won the Democratic nomination for commonwealth's Attorney Thursday in the primary held in the Tulsa, Okla. home district. He is a son of Col. Sam Crossland.

Simplicity marked the funeral services for Mrs. Wilson, wife of the President, held at the White House yesterday. A funeral train, bearing the body left Washington for Rome, Ga., in the afternoon.

### Eddyville Girl Drowns.

Miss Pearl Gray, at Eddyville, was drowned in the Cumberland. Her body has been recovered.

### RAINED OUT

#### But Union Services Were Held In Christian Church.

Sunday night the union services that were scheduled to be held in Virginia Park were transferred to the Christian Church on account of the unfavorable weather.

In the absence of Rev. H. D. Smith, Rev. J. B. Eshman presided over the meeting and conducted the song services.

Rev. J. M. Gordon, of Madisonville, formerly connected with McLean College, here, occupied the pulpit.

Mr. Gordon is a forceful and pleasing speaker. He took as his theme "The First Miracle of Christ."

Quite a large congregation was present.

### PROMINENT LAWYER KILLED

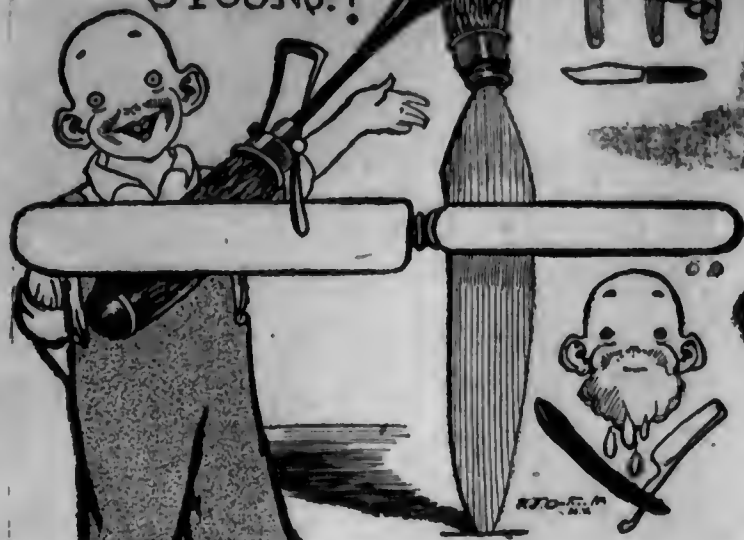

#### Dispute Over Fee Leads to Killing Of J. Mort Rothwell At Crab Orchard.

Stanford, Ky., Aug. 8.—J. Mort Rothwell, a prominent lawyer, formerly at Lancaster, was shot and almost instantly killed at Crab Orchard, ten miles from here, Saturday by Dud Shelton, a young farmer of the Flat Lick section. Rothwell and G. W. Shelton, the boy's father, were engaged in a dispute over a fee which Rothwell had charged Shelton and the fee was passed. Rothwell then stabbed Shelton and the youth came to his father's assistance, drawing a gun and shooting Rothwell twice through the abdomen. Marshal Ramsey, of Crab Orchard, sought to arrest young Shelton, when he turned his pistol on the officer, a bullet striking the latter's left leg below the knee and breaking both bones. Shelton then fled to the county and is being pursued now by Sheriff J. G. Weatherford and a posse with bloodhounds.

## TWO INCHES OF RAIN

**Drouth At Last Effectually  
Broken And Farmers Are  
Rejoicing.**

A general rain has at last fallen. The drouth in this region is effectually broken and the farmers are rejoicing. The rains have come in time to save a large part of tobacco and late corn crops and replenish the water supply, and are worth hundreds of thousands of dollars to the planters, who had become almost desperate over the situation. The rainfall Saturday night and Sunday, according to the Government gauge, was 1.65 inches, the most that has fallen during any one day since last March. The precipitation was steady and uniform and followed a good shower at noon Saturday. The rains extended over a wide area, including Christian and adjoining counties.

Purely Personal.

Misses Lottie McDaniel and Mary Walker are visiting at Waynesville, N. C.

Misses Ruth Beasley and Nannie Boyd have returned from a week's stay at Dawson.

Mrs. Green Henry Russell has returned from Dawson.

Mrs. W. E. Hamner has returned to her home at Morganfield, after a visit to Mrs. J. J. Robertson.

Mrs. T. W. Long left to-day for Diamond Springs to spend a week or ten days.

Mrs. E. H. Barker, and little daughter, Majorie, are at Dawson this week.

Sam Torian, of Gracey, has been in the city visiting friends for several days.

Misses Annie Beauchamp Payne, of Bowling Green, and Celestine Graves, of Hopkinsville, are visiting Miss Mary Barksdale near Fairview.

Misses Winnie Potter and Grace Holland, of Paducah, are the guests of Miss Cordella Cross in the county.

Mr. J. E. McPherson will leave to-day for Louisville, where he will meet his daughter Mrs. Geo. S. Howell, and little son, George, of Richmond, Va.

John T. Edmunds and Jack Stites are now in New York, having returned from England, and will be home tomorrow.

Mrs. W. S. Peterson and children will arrive from Blackville, S. C. to-night, to join Prof. Peterson, President of Bethel Female College.

Mrs. F. H. Merriman and daughter Miss Laurette, of San Antonio, Tex. are visiting with Mrs. S. E. Chastian and family on East 18th St.

### Estray Hog.

Taken up a red male hog, supposed to weigh 70 or 80 lbs., two weeks or more ago. Will return to owner when property is proven and damages paid. S. W. HALL, Rt 1 Herndon, Ky.

Advertisement.

It may be officially announced that the drouth in Hopkinsville is ended.

## DINING ROOM AT HOSPITAL

**Addition To Cost Nearly \$30,000, Contract to Louisville Co.**

Last Wednesday in Louisville the contract for a new dining hall at the Western State Hospital was let to Watson Bros.' contracting company of Louisville, at their bid of \$27,500.

The hall is to be a brick building and will be one story high. It will be of sufficient size to accommodate 920 people, about 50 by 200 feet.

The work on the new hall will start in the next few weeks.

## POST-OFFICE CIVIL SERVICE ATTACKED BY DEMOCRATS

**Amendment For Personal Appointments To Jobs Now Before House.**

Washington, Aug. 7.—A provision which would sweep from the civil service system all assistant postmasters, clerks and other employees of postoffices throughout the country and making them the personal appointees of local postmasters was put into the Moon Railway Pay Bill on a preliminary vote in the House to-day. A final vote will be taken tomorrow, when opponents of the provision say it will be decisively defeated on a rollcall.

The House had just adopted an amendment by Representative Moon providing that present assistant postmasters must take a competitive examination within ninety days after the passage of the act to qualify for their places. Representative Cullop offered an amendment striking out this provision and providing:

"The postmaster at all such offices shall have the power to select his assistant postmasters and all clerks and employees in his said office, irrespective of any civil service laws to the contrary, and all laws for the regulations and orders in conflict with this act are hereby repealed and nullified."

"Provided, that such appointments shall be for a period of four years."

Few Republicans in the House voted on the amendments, leaving it to the Democratic side, and it was written into the bill, 75 to 25.

### No Chances for Him.

A dealer selling cloth in a small town asked an Irishman who was passing if he would buy a suit length, and added: "You can have it for ten bob." To which Pat replied: "Begob, sir, if tuppence would buy the makings of a topcoat for an elephant I couldn't buy the makings of a pair of leggings for a canary this minute."

FOR SALE—One Hereford bull calf. HOLLAND GARNET. Advertisement.

England's Naval Commander is Sir John Jellicoe, while Earl Kitchener has been made War Secretary to conduct the army operations.

N. E. Calmes, editor of the Lyon County Herald at Eldysville, died at an Evansville sanitarium of tuberculosis.

## SILKS! SILKS!

MAIN STREET, HOPKINSVILLE, KY.

### W. T. BRODERICK.

**Former Hopkinsville Policeman  
Died at Princeton  
Friday.**

W. T. Broderick, at one time a policeman in this city, died in Princeton Friday of typhoid fever. The Leader says of him:

"Coming here about three years ago as agent for the Commonwealth Insurance Company, Mr. Broderick being of a sociable turn soon made a host of friends, and was liked by all who knew him. He was about forty-five years of age, and leaves a wife and one daughter to mourn his death."

"His remains will be conveyed to Elkton, his old home, for interment, which will take place Saturday. He was a member of Silver Leaf Camp, W. O. W. No. 92, of this city, and his remains will be accompanied to Elkton by a delegation of Woodmen brethren."

Bordy Yon, the little portside dinger whom Hoptown fans will well remember as the popular idol of a couple of seasons past, pitched himself into the baseball hall of fame Thursday by twirling a no-hit game. Only one man reached first base and he got there on an error. Yon has been pitching swell ball for Raleigh N. C., in the Carolina League. The victim of Yon's twisters in the no-hit fray was the Asheville club. The game was at Raleigh.

Friday afternoon a ball club bearing the appellation of Gracey but made up, with the exception of one man, of boys from Clarksville and Hoptown, played a club made up of the employers of the Western State Hospital and trimmed them 7 to 5. The game was a hot one from the initial inning to the final frame. William Tandy acted as arbitrator and handled the indicior well.

### Bars and Bars.

Mr. Justice Letton of the Nebraska supreme court went East one summer and left his house in care of friends. One morning the telephone bell in the Letton house rang and a woman asked for Mr. Letton. She was told the justice was not in town. She refused to believe that and asked where Mr. Letton was. "He's on his way home now," the lady at the Letton home replied; "but he stopped off at Milwaukee to attend the meeting of the American Bar association." "Evidently," said the woman at the other end of the wire superciliously, "there is some mistake. The Mr. Letton I know and want is not a saloon-keeper. He runs a grocery store."—Saturday Evening Post.

### ANSWER COUNTRY'S CALL.

**Heads of Nicotine Plant at  
Henderson Return to Ger-  
many.**

Henderson, Ky., August 4.—O. H. Bernhart and C. Brauns, Jr., officers of the American Nicotine Company here, received telegrams Monday afternoon from the German Consulate at Cincinnati to proceed at once to Cincinnati and get passports to join their regiments in Germany. Mr. Bernhart is a captain and Brauns a Lieutenant in a German reserve regiment. Because of their hasty departure the plant is closed down and will not reopen until they return or others are sent to fill their positions. The closing of the plant throws fifty laborers out of work.

### The War And Its Causes.

The assassination of the Grand Duke of Austria and heir apparent to the throne of Austria Hungary in Bosnia on June 28 is the real cause of the war. Austria following this assassination laid down a lot of conditions to Serbia which it was impossible for Serbia to comply with. They were laid down for the purpose of bringing about war because Austria did not expect Serbia to agree to them. Following the declaration of war against Serbia, Russia began to mobilize its army, as under treaty it was bound in honor to protect Serbia. This led to Germany getting in and declaring war against Russia because it was bound under treaty to aid Austria.

Had Germany been wise and acted with prudence the Powers involved would have stopped here, but Germany invaded France and forced that country into conflict. Not satisfied with this step it next invaded Belgium in direct violation of a treaty with England and this forced England to declare war, and Belgium will of course protect its own territory against invasion. Unless Germany can maintain itself upon the sea against the combined ravies of England and France (which does not seem possible) Germany will be bottled up with no sources of food supplies beyond its own country. Even with the aid of Austria it will be licked to a frazzle, if its land forces can be held in check by French and Russian armies until its ports are blockaded.—Elizabethtown News.

### KENTUCKY.

(By H. E. Folsom.)

In the heart of Old Kentucky,  
Where the grass is always green,  
Where the bees are ever working,  
Making honey for their queen,  
There the sheep and lowing cattle  
Gladly graze in pastures wide,  
To say, "I'm from that good old State,"  
Sure fills me up with pride.  
For pretty women, loyal hearts  
And horses fleet of foot  
Kentucky produces more of these  
Than all other States to boot,  
For, hospitably reigns supreme;  
Her people's hearts are wide,  
To say, "I'm from that good old State,"  
Sure fills me up with pride.  
Dexter.

## Sale of Stock and Farming Implements

## PERFECT CONFIDENCE

Hopkinsville People Have Good Reason For Complete Reliance.

Do you know how—

To find relief from backache;  
To correct distressing urinary ills;  
To assist weak kidney?  
Your neighbors know the way—  
Have used Doan's Kidney Pills;  
Have proved their worth in many tests.

Here's Hopkinsville testimony.

Mrs. O. A. McElroy, 622 O'Neal St., Hopkinsville, Ky., says: "My son used to have trouble from weak kidneys. One box of Doan's Kidney Pills was all that was needed to strengthen his kidneys. I consider Doan's Kidney Pills a fine remedy for kidney trouble and can highly recommend them."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. McElroy recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

Gentleness at Home.

Use your gentlest voice at home. Watch it day by day as a pearl of great price, for it will be worth more to you in days to come than the best pearl hid in the sea. A kind voice is joy, like a lark's song, to a hearth at home. It is a light that sings as well as shines. Train it to sweet tones now, and it will keep in tune through life.—Elitha Burritt.

Quick Adjustment.

Aug. 5th 1914.

Messrs Locke & Draper,

Dear Sirs:

We desire to thank you for the very prompt and satisfactory adjustment of our lightning loss, which occurred on 3d instant. We heartily recommend you, and the Continental Insurance Co., to the insuring public. The Company paid us for eleven mules in accordance with the policy, besides hay, grain, harness and farming utensils.

Right Spirit.

Fond Mother—"Well, Tommy, what are you going to do for me when you grow up?" Tommy—"If I can afford it I'm going to send you to some high-toned establishment where you will get a fine education."

## PROTECTION FOR WILD BIRDS

By Imperial Decree They Are Guarded and Cared for Throughout the German Empire.

The German war department has issued an order directing local commanders to see that wild birds settling in the immediate neighborhood of barracks and other military buildings are protected. The emperor holds strong views on the subject, and the movement generally for the protection of bird life is being carried on under the imperial eagle. His great powers as supreme chief of the army notably are being employed by him to secure his end. Under certain conditions, especially in the neighborhood of army hospitals, military commanders are now instructed to reserve spaces, plant bushes, and, in some cases, to provide hanging nesting boxes for the birds of the neighborhood.

To the kaiser's influence has also to be credited the policy which the Prussian railway administration has been following for the last few years in planting embankments with sturdy bushes (chosen among the less inflammable varieties, for harboring birds' nests, while nests built in station buildings have long been considered as practically under imperial and royal protection. Within the last twelve months the emperor has also completed the planting of a portion of the estate of his castle at Celle, near Hanover, which is to be reserved as a "birds' paradise."

Infection and Insect

Bites Dangerous.

Mosquitoes, flies and other insects, which breed quickly in garbage pails, ponds of stagnant water, barns, musty places, etc., are carriers of disease. Every time they bite you they inject poison into your system from which some dread disease may result. Get a bottle of Sloan's Liniment. It is antiseptic and a few drops will neutralize the infection caused by insect bites or rusty nails. Sloan's Liniment disinfects cuts, bruises and sores. You cannot afford to be without it in your home. Money back if not satisfied. Only 25c, at your Druggists.—Advertisement.

Learn to Write Well.

First legibility; second, neatness, should be the endeavor in handwriting and let the "character" and the "individuality" take care of themselves. If you wish to devise a signature hard to forge, that is another thing; but one's every-day handwriting should be plain and as good-looking as one can make it. The art of writing a neat, legible, well-punctuated, correctly expressed and spelled letter should belong to every high-school graduate, much more to every college graduate; and the thanks of the community are due to those who are testing and trying to improve our methods of education; but they must remember that the letter-style is properly more loose and conversational than any other, and therefore should not be criticized in just the same way.

A lazy liver leads to chronic dyspepsia and constipation.—weakens the whole system Doan's Regulat (25c per box) act mildly on the liver and bowels. At all drug stores. Advertisement.

Good Luck or Hard Work?

The question of failure or success is such a wide one that the majority of people merely touch on it and attribute their condition to luck. Do you know what successful men say about luck? They scoff at it, declaring that good luck is another name for hard work, which rarely fails to bring rewards. Evading one's responsibilities or passing over opportunities means a bad mess of life, no matter what name you tack to it. Want of forethought is something for which each person is responsible, and it keeps many a man providing properly for his family and deprives good men of helpmates they expect to have in the women they marry.

## Children Cry FOR FLETCHER'S CASTORIA

Warships for China.

When the Creditanstalt, the Escomptebank, and the Laenderbank subscribed a portion of the Chinese loan to the amount of £1,500,000 (\$7,299,750) in 6 per cent bonds, it was agreed that the Chinese government should favor Austrian industries with orders for ships. In compliance with this agreement, the construction of three Chinese cruisers has been ordered, which will be built at Monfalcone, near Trieste. The cruisers will cost 10,000,000 crowns (\$2,000,000). It is reported that some of the machinery will be constructed in Bohemian factories.

We are prepared to do all kinds of high grade job printing. Try us.

## ANOTHER CURED By LIV-VER-LAX

The City Commissioner of Terrell, Texas, a former Greenville citizen, writes:

April 9, 1914.

"I take pleasure in saying for publication that by the use of Liv-Ver-Lax I have been cured of a disease which is correctly described by the recognized symptoms of Biliousness, Stomach and Liver Trouble, Constipation and resulting complications, and commend its use to all like sufferers."

George H. Jackson.

L. E. Griffith, Witness.

Mr. Jackson, like hundreds of others, has discovered the beneficial results of Liv-Ver-Lax, the wonderful vegetable Liver Tonic. Harmless, safe for any child; has no injurious after-effects like calomel. Pleasant to take; no nausea.

Take regularly and keep well. 50c and \$1 at druggists or from Lebanon Co-operative Medicine Company, Lebanon, Tenn.

For sale by L. L. Elgin and Anderson-Fowler Drug Co. Advertisement.

Character Told by the Nose.

It is an ancient belief that the nose indicates ancestry. We speak about the aristocratic nose with its high bridge and the plebeian nose of the toiler. Certainly, in a great many cases, race can be distinguished by the nose. The Hebrew could hardly be confused with the typical negro nose. The highly-arched nose is supposed to indicate tendency to rule, and the flattened nose shows servility.

Summer Constipation

Dangerous.

Constipation in summertime is more dangerous than in the fall, winter or spring. The food you eat is often contaminated and is more likely to ferment in your stomach. Then you are apt to drink much cold water during the hot weather, thus injuring your stomach. Colic, Fever, Ptomaine Poisoning and other ailments are natural results. Pe-D-Lax will keep you well, as it increases the Bile, the natural laxative, which rides the bowels of the congested poisonous waste. Pe-D-Lax will make you feel better. Pleasant and effective. Take a dose to-night. 50c at your Druggist.—Advertisement.

World's Darkest Moment.

The darkest moment is said to be just before dawn. This is now discovered not to be so. The darkest moment, relatively speaking, is when the noonday sun shines. Then it is that living things on the earth are blinded by the dazzle of the sun and fail to recognize the light that never falls out in space.

## Children Cry FOR FLETCHER'S CASTORIA

## THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

This is a time of great events, and you will want the news accurately and promptly. All the countries of the world steadily draw closer together, and the telegraph wires bring the happenings of every one. No other newspaper has a service equal to that of The World and it relates everything fully and promptly.

The World long since established a record for impartiality, and anybody can afford its Thrice-a-Week edition, which comes every other day in the week, except Sunday. It will be of particular value to you now. The Thrice-a-Week World also abounds in other strong features: serial stories, humor, markets, cartoons; in fact, everything that it to be found in a first class daily.

THE THRICE-A-WEEK WORLD's regular subscription price is only \$1.00 per year, and this pays for 156 papers. We offer this unequalled newspaper and Hopkinsville Kentuckian together for one year for \$2.65.

The regular subscription price of the two papers is \$3.00.

"Reformers" Might Heed.

Trollope, in describing John Bold, in "The Warden," gives some advice to reformers. "Bold is thoroughly sincere in his patriotic endeavors to mend mankind," says Trollope, "but," he adds, "I fear that he is too much imbued with the idea that he has a special mission for reforming. It would be as well if one so young had a little more diffidence himself and more trust in the honest purposes of others—if he could be brought to believe that old customs need not necessarily be evil, and that changes may possibly be dangerous." This was written fifty-nine years ago. Will anybody dare to suggest that the criticism still holds good?—Springfield Republican.

Laughter Aids Digestion.

Laughter is a most healthful exertion; it is one of the greatest helps to digestion with which I am acquainted; and the custom prevalent among our forefathers, of exciting it at table by jesters and buffoons, was founded on true medical principles.—Hufeland.

Summer Coughs

Are Dangerous.

Summer colds are dangerous. They indicate low vitality, and often lead to serious Throat and Lung Troubles, including Consumption. Dr. King's New Discovery will relieve the cough or cold promptly and prevent complications. It is soothing and antiseptic and makes you feel better at once. To delay is dangerous—get a bottle of Dr. King's New Discovery at once. Money back if not satisfied. 50c and \$1.00 bottles at your Druggists. Advertisement.

**STORE MANURE FOR GARDENS**  
Best Practice is to Place Fertilizer in  
Oblique Corner—Spade and  
Turn Frequently.

A common practice is to manure the  
garden every year, late in the fall, or  
before planting in the spring, no fur-  
ther attention being given. This prac-  
tice, however, is not the best.

The manure for the garden should  
be kept in a large box with a lid, or so  
screened that flies cannot enter it.  
Manure heaps are the natural breeding  
places of these pests and if they are  
allowed to remain near the house, un-  
covered, will prove a great nuisance.

A good plan is to use a very close  
wire screen nailed to a frame with  
hinges for the top. The manure should  
be spaded often on the top so that the  
water from the clouds or the sprin-  
kling pot may penetrate to all portions  
of it.

If kept in a box a spout should be  
placed in one corner, at the bottom, so  
that the water may drain into a sunken  
barrel.

This will supply liquid manure  
which can be used at all seasons when  
vegetables and flowers are growing.

The manure in the box should be  
worked over once or twice a month,  
working the bottom to the top so that  
the entire heap may rot.

Manure may be kept in this manner  
if the boxes are placed at the farthest  
point in the garden from the house,  
and if surrounded with vines their  
presence will never be noticed from  
the dwelling.

**BAD WEED IN THE PASTURES**

Burdock is Typical Back Yard Plant  
But is Found in Fence Corners  
and All Waste Places.

Burdock is a biennial plant with a  
large, deep tap root. The leaves,  
which are large, are generally fuzzy  
beneath, and the leaf stock is hollow.  
The first year the plant merely devel-  
ops a leaf and root system. The sec-  
ond year the branched flowering stalk  
is sent up, sometimes six feet high.  
At the ends of the branches purple  
tipped flower buds are formed. The  
burdock is especially bad in sheep  
and horse pastures, as the buds get into  
the wool of the sheep and manes and  
tails of the horses. Burdock flowers  
in July and August and seeds in Sep-  
tember. It is a typical back yard  
weed, but is found in fence corners  
and all waste places.

Continued cutting will exhaust the  
plants, and, in time exterminate them.  
The process may be hastened by cut-  
ting off deeply below the surface and

Burdock—Showing Top of Plant With  
Burs, Also Large Leaf.

applying a handful of salt or a few  
drops of gasoline or kerosene to the  
root of each plant.

**Mangels for Cows.**

Mangels are good cow feed, but are  
not of high value as a horse feed.  
They contain about nine per cent of  
dry matter and 91 per cent water, 1.1  
per cent protein and six per cent car-  
bohydrates and have a nutritive ratio  
of 1:6.5. They are valuable as succu-  
lence in feeding milk cows, a very im-  
portant consideration when animals  
are being fed on dry hay or fodder  
where one has no silo to keep silage  
in. The mangels are far more valuable  
for maintaining the healthfulness of  
the animal than for the food in them.  
Carrots are the best horse's root feed  
in preference to all others and the  
sugar beet for swine and turnips for  
sheep.

**Spraying Outfits.**

A barrel sprayer will spray from  
five to ten acres of orchard and costs,  
complete, from \$12 to \$30. A bucket  
sprayer is useful for whitewashing or  
spraying a dozen trees or less; costs  
\$2.50 to \$8. The small hand com-  
pressed air and knapsack outfits are  
used for spraying potatoes, nursery  
trees, berries and vineyards. They  
cost from \$5 to \$15. All sprayers  
should have brass working parts which  
are not injured by acids.

**Summer Diet for Pigs.**

In summer the animal heat is kept  
up with but little effort, and in con-  
sequence a lighter diet should be fed to  
pigs. The food should be thinned  
down with some good sweet whey,  
kitchen slops or waste milk. The pigs  
will drink this with a relish, and it will  
be better for them in every way than  
thick, heavy food.

**Woman's Greatest Trouble**

Big Sandy, Tenn.—Mrs. Lucy Can-  
trell, of this place, says: "Every two  
weeks, I had to go to bed and stay  
there several days. I suffered untold  
misery. Nothing seemed to help me,  
until I tried Cardui, the woman's tonic.  
Although I had been afflicted  
with woman's weakness for seven  
years, Cardui helped me more than  
anything else ever did. It is surely  
the best tonic for women on earth."  
Weakness is woman's greatest trouble.  
Cardui is woman's greatest  
medicine, because it overcomes that  
weakness and brings back strength.  
In the past 50 years, Cardui helped  
over a million women. Try it for  
your troubles, today.

itor service. Roof garden  
free to occupants of building.  
Thoroughly modern in every  
particular. Desirable neigh-  
borhood and close to busi-  
ness.

**LAST LAUGH IS WITH FROGS**

Boys Who Have Hunted Them Will  
Fully Believe That This Article  
Contains Truth.

Did you ever creep up cautiously,  
quietly and politely behind a big  
frog so as not to disturb his medita-  
tions—with a club in your hand?  
And then did you ever lift that club  
and bring it down with all your  
might on the spot where the frog—  
used to be? Of course you have, says  
a writer in the American Boy. Now,  
how did you account for the frog's  
moving on just when you want him  
to linger? It's provoking after  
you've got your feet sopping and  
your clothes muddy; but the most  
provoking thing about it is the calm-  
ness of the frog. He sits there on his  
lily pad and pretends there isn't a  
boy within a mile. And he keeps  
right on pretending till your club is  
an inch from his nose—when he goes  
away from there. It is all a put-up  
job. That's the way frogs amuse  
themselves. You think you're hav-  
ing fun hunting frogs, but as a mat-  
ter of fact the frogs are having fun  
fooling boys. Probably you went out  
in the morning with your mind all  
made up to come home with a nice  
mess of frogs' legs and surprise the  
folks. All day you wallow in the  
mud and hang away with your club  
at frogs that are laughing at you till  
they nearly split their sides. By the  
time it begins to grow dark you have  
in your bag a couple of immature  
frogs whose inexperience allowed  
them to laugh a second too long. Two  
frogs for a day's work! Anyhow,  
you figure, there'll be enough for  
mother to have for breakfast. That  
consolation lasts till you take them  
into the kitchen. Mother looks at  
them and edges away. "Take those  
nasty toads right out of the house  
immediately!" she says. And then,  
like as not, the frogs back in the  
pond have another laugh.

**Constipation Causes Sickness.**

Don't permit yourself to become  
constipated, as your system imme-  
diately begins to absorb poison from  
the back-up waste matter. Use  
Dr. King's New Life Pills and keep  
well. There is no better safeguard  
against illness. Just take one dose  
to-night. 25c. at your Druggist.

**Quite Right.**

Teacher of Botany in Girls' School  
—Now for a little review. What can  
you tell me, Miss Smith, of the long-  
evity of bacteria?" Miss Smith—"I  
don't remember exactly, but I think  
they are longer than they are wide."

**Children Cry**

**CLOSE TO NATURE'S HEART**

Glory of the Sierras Could Not Help  
but Bring Inspiration to  
the Poet.

It would be well for many of our  
poets of American nature if they  
could be purged and strengthened in  
Redwood canyon, writes Henry S.  
Canby in the Atlantic. For here one  
cannot be content to pipe; one can-  
not blink the immensity of the world  
or the scope and sweep of nature's  
plan. The work of wind and water  
and heat is clear; the great trees  
grow by law where moisture lets  
them; their seeds die in the slopes  
which the swing of the earth or the  
sun has made sterile for their kind.  
In the placid home country of the  
lowlands, or in the backed and  
brush-grown forests of the East, the  
imagination is easily dulled or frozen  
by realizing that the cliff is only  
worn calcium carbonate, and the tree  
a compound hydrocarbon. Here one  
comprehends without disillusionment  
the immutable laws of matter.  
Here the symbolic beauty of the  
great trees carries the thought into  
further speculation; drives it from  
the petty sentimentality of the mere  
nature enthusiast into serene  
breadth. A French decadent would  
write verse as noble as beautiful in  
the Sierras—if indeed he could write  
at all. A magazine poet of the mid-  
dergrowth would rise above senti-  
ment and egoism. A scientist would  
reach beyond facts into beauty, as is  
proved by the work of such pioneers  
in these splendid mountains as John  
Muir and the geologist Clarence  
King.

Clerk (in jewelry store)—What  
can I do for you, sir?  
Prospective Customer—It's not a  
question of what you can do for me,  
but what you can do me for.

**ADVICE FROM MARK TWAIN.**

There is a gem in a letter from  
Mark Twain, which probably has not  
been published before, to Will M.  
Clemens, who wanted some advice  
as mounted in the Shor...  
"Punch, Brothers, Punch  
Care!"  
"How can I advise another  
wisely, out of such a capital  
cloud with mistakes? Ah, I  
know how to avoid the like? No, I  
permitted to make the same mis-  
takes do not happen to me, but  
your own experiences may be  
teach you, but another man's  
I do not know anything...  
to do but just peg along with the  
things that offer, and...  
everybody's."

**DIFFICULTIES COMPARED.**

"You may be president some day."  
"Well," replied the pious  
youth, "if you were president of the  
United States, I'd try for it, but if  
you mean president of a railroad, I'll  
think it over."

**THE REASON.**

"Maudie's tears seem, when she  
sings, to be genuine."  
"That's why her teacher is trying  
to curb them."

**AN UGLY HINT.**

"I eat a great deal of fish because  
it's good brain food."  
"Do you prefer weakfish or min-  
nows?"

## MEN IN MIND IN HOPKINSVILLE

People of Prominence In The Pearl City of The Penny-royal.

### BIOGRAPHICAL SKETCH NO. 46.

John L. Shrode, The Popular Manager of The Rex Theatre.

In 1906 a great flood visited Hopkinsville and the overflowing of little river caused much damage. One of the principal sufferers was the City Light Co., and on the ebbing of the flood an expert engineer was brought to Hopkinsville to supervise the restoration of the damaged power plant. Unheralded and unknown, John L. Shrode came to the city and quickly made a place for himself among the most progressive and popular citizens.

His efficiency in his calling, his excellent habits and unusual business qualifications were all strong points in his favor and his uniform courtesy and cheery disposition made friends on all sides.

He was not only a high class engineer, but was a musician of great talent and quickly found his way into the Third Regiment Band, where he has proven to be one of Director Lebkuecher's main stays and most accomplished musicians.

About two years ago he became one of the organizers of the Rex Theatre Company and later became manager of the Theatre itself, where he has developed a skill and fitness for the work of a public entertainer that has been a marvel even to his best friends. The big success made by the Rex is a standing testimonial to the splendid business capacity of the manager.

Mr. Shrode was born in Brazil, Ind., and was 23 years old when he came to Hopkinsville eight years ago. We can almost claim him as a home product, as he came to Hopkinsville as soon as he cut his wisdom teeth. In addition to his musical accomplishments, he is something of an entertainer in sleight of hand performances and does many clever tricks with cards. He is in great demand as an entertainer in this line.

There are few more popular men in town than Mr. Shrode.

### Gourly-Ezell.

Yesterday morning at about 11:45 Mr. Nathan Gourly and Miss Mary Rebecca Ezell were married in the ladies waiting room at the I. C. Depot by County Judge Walter Knight.

The groom is 36 years old and has been living at Lafayette, where he engaged in mercantile business. Miss Ezell is 31 years of age and her home is in Big Rock, Tenn. The happy couple left on the noon train for Arkansas, where they will make their home.

### Dad Is Puzzled.

Mr. L. D. Houston, of the Caron Directory Co. received a letter from his little daughter asking this question: "If you were emperor of Austria and Hungary for war, would Germany Russia fleet to Serbia?" Mr. Houston has not yet decided what would be done under the circumstances.

### Convicted In North Carolina.

Prof. Hayer, who left Henderson several years ago under suspicion of arson, went to Winston-Salem N. C., and news comes that he has been given a ten-year sentence for embezzling funds from an Orphan's home.

## SUITS ON STREET BILLS

Ordered By The Council Against Two Largest Abutting Property Owners.

### NEW POLICEMEN ARE NAMED

Ordinance Passed To Enforce Strict Sanitary Regulations.

The city council held its regular semi-monthly meeting Friday night and several matters of unusual importance were passed on.

Perhaps the most important action taken was the passage of an ordinance providing for the sanitary condition of closets on residence lots having no sewerage connection. This ordinance was passed on its first reading. Before the passage of this ordinance it was next to impossible to force property owners having such closets to have them cleaned regularly and kept in a sanitary condition. The cleaning of such closets by colored men engaged in that business is also subject to criticism.

Under the new ordinance this work is to be done by the city or some contractor who is selected by the council for the position. Said contractor must give bond of \$1,000 for the faithful performance of his duties. He is to be under the direction and supervision of the Health Department. He is also clothed with authority of sanitary inspector, and may force owners to have property cleaned if it is in condition to jeopardize public health.

The rates are limited to \$1 per quarter for residences and \$1.50 for boarding houses, hotels, or business houses. The term of the taking the job contractors will start on the first of January each year and election for the place will take place annually.

Another matter of general interest taken up was the appearance before the council of a committee of the school board, composed of Ira L. Smith, H. H. Abernathy, H. A. Keach and T. L. Metcalfe. This committee asked that a committee from the council be appointed to meet with them and discuss the advisability of having an election to authorize the issuance of a school bond of \$65,000 on the city and also to provide for much needed improvements in both the white and colored schools. Mayor Yost appointed councilmen Ducker and Southall and city Attorney Southall to represent the council in the matter.

The street engineer was instructed to warn all property owners, who had been ordered to put down pavements adjoining their premises, that unless this is done within ten days the city will order it done and assess the property for the cost.

The City attorney was instructed to file suit to be tried in the September term of court against the two persons owing the largest amounts on apportionments upon which no payments have been made on the Bitulithic streets. These are Mrs. J. D. Hill, \$388.23, and John B. Trice, \$225.66. Interest for two years to be added. The total unpaid apportionments exceed \$2,500.

The resignation of W. D. Carter as a member of the police force was presented by Chief Roper, and accepted by the council. W. G. Mitchell was appointed by the Mayor to fill the unexpired term.

Councilman Russell's action as special committeeman in trading with the Caron Directory Company for 13 directories and a census of the city to be made for \$100 was approved.

The finance committee was instructed to make settlement with tax collector Richards and also make settlement with delinquent tax collector J. T. Ricketts.

The borrowing of \$5,000 from the Bank of Hopkinsville was ratified. This sum to be used in meeting present needs.

Several other small matters were brought up and the settlement of two or three suits was made.

### Strayed or Stolen.

From a point near Hopkinsville, on the Cox Mill road, on Thursday night, a black horse mule, about 16 hands high, about 9 years old. Reward for information. Phone 323-1.

### Emancipation Day Observed.

Saturday the 8th of August was celebrated as Emancipation day by a large number of the colored population. This famous event is usually celebrated by the colored population each year. A big barbecue was held at Union Park and a double-header baseball game was the feature of the afternoon. An excursion to Paducah took a large crowd from here. Many from the county came into town.

**DR. BEAZLEY**  
Specialist  
(Eye, Ear, Nose and Throat.)

### Peace Treaties a Joke.

Secretary Bryan has sent to the Senate a statement outlining the differences in the twenty-two peace treaties reported favorably by the Foreign Relations Committee.

### Bloody Tragedy.

At Boaz, in Graves County, John Newman shot and killed Charley Boren and Walter Boren cut Newman to death with a knife, stabbing him twenty or more times in a death grapple. Newman was a merchant at Boaz and the Borens were the aggressors, starting the trouble by throwing rocks at the store as Newman was closing up.

### Close In Tennessee.

The race for the Supreme Court between Robert Barrow, Democrat, and S. C. Williams, Independent, seems very close in Tennessee. The Democratic Congressmen with opponents are apparently sure of re-election.

### Fire In Louisville.

Fire which threatened to wipe out several blocks of Louisville property did \$100,000 of damage Thursday between Eighth and Ninth and Green and Jefferson streets.

### Mrs. James Safe.

Senator James was notified from Berlin by Ambassador Gerard, that Mrs. James and Mr. and Mrs. Post Wheeler were taken from Berlin together with the Russian Ambassador, and are on their way to St. Petersburg, probably being the only Americans to escape from Germany. From St. Petersburg, they go to China thence to Tokio. Mrs. Wheeler was Hallie E. Minnie River, the Kentucky novelist.

### Dave's Wife.

The beautiful wife of Hon. Dave Kincheloe is a noted elocutionist and a wonderful whistler and pianist. Thousands have been entertained by her versatile talents. Fact is, Mrs. Kincheloe would make a mighty good congressman, or congresswoman, herself. She will doubtless be extremely popular in the social circles of Washington.—Owensboro Inquirer.

### Marriage Romance Ends.

One of the new suits filed for the September term of court is a divorce suit by Mrs. Florence Clymer Simmons against her husband, Dr. J. E. Simmons, of Dukedom, Ky. The couple were married as a result of a matrimonial advertisement which Miss Clymer answered and their marriage followed. Mrs. Simmons alleges that her husband sent her back here on a pretext that he had been called to see a sick brother and that she has never been able to communicate with him since.

### Returns To Kentucky.

Rev. M. V. T. Yeaman, a son of Judge Yeaman of Henderson, now at Canada, Ind., has accepted a call to the Presbyterian church at Mt. Sterling.

**Fresh Carload of Bananas in rear of Clay Street School.**

## Do You Believe in Trial By Jury?

Every year for twenty years we have appeared before the farmers of Kentucky and submitted our goods, our prices and our terms to them. Every year we have made these claims:

### We Want to Add You to the Jury.

We want to add your name to the list of those who demand the best Fertilizer and get it in

THE ANALYSES OF GLOBE FERTILIZER are those which twenty years of careful study of soils and crops have shown to be most profitable for the farmers where there are sold.

THE MATERIALS IN GLOBE FERTILIZER are those which science and experience have shown to furnish the plant with the food best suited to each stage of its growth at the lowest possible price.

THE MECHANICAL CONDITION OF GLOBE FERTILIZER is the best that able experienced men with perfect equipment can produce.

THE PRICE OF GLOBE FERTILIZER is as low as is consistent with the production of first class Fertilizer for first class farmers.

Every year an increasing number of Kentucky's best farmers have considered these claims and rendered a verdict in our favor.

Every year they have brought their harvests of wheat, corn, tobacco and potatoes to the markets and fairs and said: "These crops are the products of brains, labor and GLOBE FERTILIZER. I buy the best Fertilizer because I want the best crops and the biggest profits."
